SIGNATORY MEMBER GLOBAL COMPACT

The UN Global Compact is an appeal to companies and organizations to align their strategies and operations with ten universal principles on human rights, including; labour standards, the environment and the fight against corruption. It has the UN mandate to promote the sustainable Development Goals (ODS) in the private sector.

ODS

Exkal aligns its business model with the United Nations sustainable development Agenda, in order to contribute, with local actions, to achieving global objectives.

Exkal is convinced of the importance that the private sector has in the achievement of these objectives, it aligns its business model with the new Agenda of sustainable development of the United Nations. The company especially contributes to the achievement of objectives 11, 12 and 13 through concrete initiatives, which underline the role of our industry in achieving these objectives, although we also collaborate indirectly in the achievement of all:

Strategic objectives

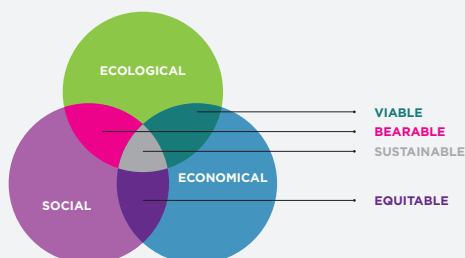

Indirect collaboration Objectives

CIRCULAR ECONOMY PACT
