ES

Este innovador sistema estructural optimiza el uso de materiales desde la construcción del mueble. Además, el diseño 2 en 1 permite mejoras tanto en el rendimiento de refrigeración como de congelación, minimizando las variaciones de temperatura y aumentando el ahorro de energía. La gama de armarios dobles con tecnología SPACE+ 2 en 1 está especialmente diseñada para la prestación de 1 servicio, simplificando la instalación y mejorando la huella del supermercado.

EN

This innovative structural system optimizes the material use from the construction of the cabinet. In addition, the 2 in 1 design allows improvements in both refrigeration and freezing performance, minimizing temperature variations and increasing energy savings. The range of double cabinets with SPACE+ 2 in 1 technology is specially designed for 1 service performance, simplifying installation and improving supermarket footprint.

FR

Ce système structurel innovant optimise l'utilisation des matériaux dès la construction du meuble. De plus, la conception 2 en 1 permet d'améliorer les performances de réfrigération et de congélation, en minimisant les variations de température et en augmentant les économies d'énergie. La gamme de meuble monocuve avec technologie SPACE+ 2 en 1 est spécialement conçue pour optimiser l'emprise au sol et faciliter l'installation.

DE

Dieses innovative Struktursystem optimiert den Materialeinsatz bei der Konstruktion des Schrankes. Darüber hinaus ermöglicht das 2-in-1-Design eine Verbesserung der Kühl- und Gefrierleistung, wodurch Temperaturschwankungen minimiert und Energieeinsparungen erhöht werden. Das Sortiment an Doppelschränken mit SPACE+ 2-in-1-Technologie ist speziell für die Leistung von 1 Service konzipiert, vereinfacht die Installation und verbessert die Stellfläche im Supermarkt.
